

SAFETY FIRST!

Parents & Guardians, Grandparents & babysitters, we need your help!

As student safety is a priority for us, we ask that cars only **use the side parking lot for drop off & pick up during arrival and dismissal times.**

Our front door driveway is reserved **ONLY** for our buses.

This helps to keep our students safe by reducing the risk of a student/car accident.

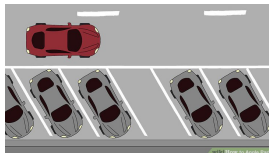

Please note: The front driveway is also a NO Parking zone during the entire school day. .

Please park in the side parking lot or park off the school grounds and walk with your child to the sidewalk to school. Adults are asked to stop at the concrete pad by the main entrance to avoid a pedestrian "jam" with students arriving on busses. We appreciate your understanding and your help to keep our students safe.

Student safety is put at risk when cars pull up behind, between & past buses delivering our students safely to school. The Main Entrance Driveway is NOT accessible as per 2 signs (shown at top) from 9-10 and from 3-4 by any vehicle that is not a school bus.

The signs along the school side indicating "No Parking" provide a safe walking route for our students dropped off in the parking lot, to travel into the school, along the gravel, safely.

Our staff park like this ↑ on the Mountain Lee Rd. side of the school driveway to make room for multiple vehicles to park safely out of the bus zone & keep the parking lot clear for visitors. **Please help us to keep all of our students safe!**
